## CONTENTS

Vol. 29 (2020) No.1

**DAN BĂRBOSU**

*The Bernstein operators on any finite interval revisited* .....01 - 08

**TANMAY BISWAS**

*Relative  $(p, q)$ -  $\varphi$  order and relative  $(p, q)$ -  $\varphi$  type based on some growth properties of composite  $p$ -adic entire functions* .....09 - 16

**SILVESTRU SEVER DRAGOMIR**

*Inequalities for the finite Hilbert transform of functions with bounded divided differences* ..... 17 - 26

**M. M. GÜEYE, M. SENE, M. NDIAYE and N. DJITTE**

*Explicit algorithms for  $J$ -fixed points of some non linear mappings in certain Banach spaces* ..... 27 - 36

**AYDIN IZGI and SEVILAY KIRCI SERENBAY**

*Approximation by complex Chlodowsky-Szasz-Durrmeyer operators in compact disks* ..... 37 - 44

**ÇAĞLA KAMBAK and İBRAHİM ÇANAK**

*An alternative proof of a Tauberian theorem for the weighted mean summability of integrals over  $\mathbb{R}^+$*  ..... 45 - 50

**MONICA LAURAN and ADINA POP**

*Solving a system of integral equations by using some tripled fixed point theorems* ..... 51 - 56

**BALCHAND PRAJAPATI**

*$n$ -Commuting skew higher derivation on semiprime rings* ..... 57 - 64

**K. RAJENDRA PRASAD, MD. KHUDDUSH and D. LEELA**

*Existence of positive solutions for half-linear fractional order BVPs by application of mixed monotone operators* ..... 65 - 80

**F. MÜGE SAKAR and H. ÖZLEM GÜNEY**

*Coefficient bounds for  $M$ -fold symmetric analytic bi-Bazilevič functions using by Faber polynomial expansion* ..... 81 - 89

**T. M. M. SOW**

*General iterative algorithm for demicontractive-type mapping in real Hilbert spaces* .....91 - 99

**CRISTINA ȚICALĂ and IOANA ZELINA**

*New ant colony optimization algorithm in medical images edge detection* .....101 - 108

**S. SUNIL VARMA, THOMAS RÖSY and U. VADIVELAN**

*Radius of exponential convexity of certain subclass of analytic functions* ..... 109 - 112
